### ABOUT ME

I have a strong passion for technology and innovation. I believe that the theoretical knowledge should be tested and implemented on the real environment, and experimental research, technology transfer programs and practical work experience (Kuriftu Paper Mill Factory) are the key elements for that. I believe respect, integrity, and trust are the key values to succeed in any profession, so I give priority to those values in my study and future career.

Studying in a Competitive and challenging environment I have contributed to the best of my ability for the advancement of B.Sc. Degree In Electronics and Computer Science Engineering (Electronics, software Engineering, Computer Science, Hardware) and other related activities with CGPA of 9.27 out 10. I believe this will give you my area of interest and I look forward to join your program thank you.
